MAP (Barrier),  
Frozen & Non Barrier Trays**

# HIGH BARRIER TRAYS

Engineered for Freshness.  
Designed for Shelf Life.

Our **High Barrier Packaging Trays** are designed with **low Oxygen Transmission Rate (OTR)** and **low Water Vapour Transmission Rate (WVTR)** — ensuring exceptional protection and extended freshness for food products.

These trays are crafted using advanced multi-layer barrier materials, making them ideal for **Modified Atmosphere Packaging (MAP)** and a wide range of **sweet, dairy, and ready-to-eat** applications.

## Key Features & Advantages:

- Excellent clarity and sealability
- Superior oxygen, moisture, and gas barrier
- Protection against bruising and food damage
- Microwave compatible
- Freezer / cold storage compatible
- Perfectly suited for MAP applications
- Available in clear and opaque colours
- Stackable and nestable designs
- Multi-Compartment options
- Reusable and recyclable materials
- Convenient and user-friendly
- Aesthetic appeal with branding possibilities (embossing / custom inserts)

**MAXON High Barrier Trays** offer the perfect balance of **functionality, safety, and visual appeal**, ensuring your products remain **fresh, secure, and market ready** throughout their shelf life.
